

CATALOGUE PRICE LIST
TO "THE FISCAL STAMPS OF WESTERN AUSTRALIA" BY V.E. JOHN DZELME
(Prices in Australian Dollars)

769.57dze

I have made one more attempt to simplify the collecting of Fiscal Stamps of Western Australia. I have reviewed most of the prices and made some amendments.

Section R72 to 155 has been completely recast. Most of the stamps have their face value and colour identified. All valuations are now in full dollars; cents are no longer shown.

The price list is for single stamps, unless indicated otherwise. Multiples, because of their scarcity, attract a surcharge on an ascending scale: the larger the multiple, the higher the price:

- 10% for pairs;
- 30% for strips of three;
- 50% for strips of four or blocks of four;
- 70% for strips of five or blocks of six;
- 90% for strips of six;
- 110% for strips of seven or blocks of eight;
- 120% for strips of eight or blocks of nine;
- 150% for strips of nine or blocks of ten;
- 180% for strips of ten or blocks of twelve; etc.

The prices for stamps in unused condition are for stamps with full original gum which may have been previously hinged and are reasonably well centered. Stamps that are superbly centered may be worth more, and those that are poorly centered and/or have deficient gum, or are without gum, are worth less than the catalogue price.

The prices for used stamps are for average, reasonably centered, cleanly cancelled copies (except Supreme Court stamps), either with a manuscript cancellation or a rubber or metal stamp, or both, and include the obligatory T puncture, applied to stamps used between 1931 and 1979. Well centered copies and stamps without the T puncture, may be worth more.

June 5, 2013.

Add the following:

Closer inspection of a whole sheet of 48 stamps, discloses that the sheet is comprised of 24 stamps in Die 1 and 24 stamps in Die 2, printed in alternate rows. In Die 1, the ornament at the left of EGG is open at the bottom, while in Die 2 it is closed at the bottom.

There is also a constant variety, occurring only once in the whole sheet, in all denominations: In column 2, row 9, there is a break in the top frame and the egg has a thorn-like projection at the bottom, in line with the third I in STABILISATION, as illustrated hereunder:
